

To Whom It May Concern:

It is my honor to offer my strongest possible recommendation for Mr. Passapol Phukhang's admission to your graduate program. Mr. Phukhang is a Bachelor of Science (B.Sc.) student in the Computer Science Program (English program) at the School of Information Technology, King Mongkut's University of Technology Thonburi (KMUTT), Bangkok, Thailand. I had the privilege of teaching him in two of my classes: Operating Systems (CSC 217) in 2023 and Digital Startup and Entrepreneurship (CSC 494) in 2024. My Digital Startup and Entrepreneurship course was a testament to his demonstration of the need for entrepreneurial skills. Additionally, I served as his advisor for his capstone project (TARA), which aimed to be his first education technology (EdTech) startup.

He has continuously been aiming to build his EdTech startup, which could one day revolutionize the education system, since TARA. Mr. Phukhang is a brilliant visionary with an exceptional intellect, a global perspective, strong determination, and leadership potential. He has a strong motivation to enhance his academic knowledge and entrepreneurial skills, as well as broaden his international experience. Of course, with your academic program, his capabilities will be improved, enabling him to become a successful student and entrepreneur, and making a lasting impact globally.

When he studied with me, Mr. Phukhang demonstrated excellent proficiency in the English language. His English ability for communication is sufficient to study or work abroad in any prestigious organization worldwide. His work at the United Nations (UN) is a testament to his proficiency in the English language. In addition, he demonstrated strong computer and technology skills, critical thinking, creativity, analytical skills, and an entrepreneurial mindset, essential qualities in the modern world.

Mr. Phukhang will be an excellent graduate student who will make meaningful contributions to your program and beyond. Please feel free to contact me at [watanyoo.suks@kmutt.ac.th](mailto:watanyoo.suks@kmutt.ac.th) if you need any further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Dr. Watanyoo Suksa-ngiam". The signature is fluid and stylized, with a large loop at the end.

Dr. Watanyoo Suksa-ngiam
